Green IT Welcomes New Full Stack Developer

PHILADELPHIA, Pennsylvania - Green IT Energy Applications welcomes Surenkhuu Narankhuu to its team as a Full Stack Developer. Surenkhuu will help expand the Green IT software catalog, designing and implementing solutions that enhance the toolset available to owners and operators of renewable energy assets across the world.

Surenkhuu arrives at Green IT from the Chicago metro area via Mongolia with nearly 10 years of hands-on experience leading the development of integrated software solutions. He has built healthcare, government, and enterprise systems, including front end and back end modules using Java, C#, JavaScript, and cutting-edge web technologies.

Most recently Surenkhuu was a Senior Software Engineer at Onom Foundation, a Mongolian nonprofit focused on healthcare and educational challenges facing the country. At Onom, he designed and implemented mHealth, a comprehensive cloud-based digital health information system currently being rolled out to 25 primary health care centers in Mongolia.

He holds a B.S. in Computer Software Engineering from the National University of Mongolia and is due to complete his M.S. in Computer Science from the Maharishi University of Management in 2021.

Surenkhuu comments, "I am really happy to be part of the Green IT team. I look forward to the new challenges and opportunities that await me."

Green IT CEO Andrew Eisenberg writes, "We're very excited to welcome Surenkhuu and his family to Philadelphia. His impressive skill set and wealth of experience make him a tremendous addition to the Green IT team."

Welcome aboard, Surenkhuu!

About Green IT

Green IT Energy Applications™ provides software solutions and comprehensive IT services for the renewable energy industry. Since 2002, Green IT has pioneered technology-driven strategies that optimize all stages within the lifecycle of an asset, from origination through planning, execution, operations, and asset management. Green IT's Smart Software catalog combined with our team's industry-specific expertise equip us to add value to assets of any size or class.
