Green IT Welcomes New Full Stack Developer

PHILADELPHIA, Pennsylvania - Green IT Energy Applications is thrilled to welcome Full Stack Developer Kelly Smith to its team. Kelly will provide leadership on the latest and greatest advancements in renewable energy software development.

Kelly is an Arkansas native who brings over 20 years of engineering experience, having created multi-tenant web applications, services, and solutions for a wide variety of clients. As Senior Software Engineer at database marketing company Acxiom Corp, Kelly was Lead Engineer for a large computing cluster, where he designed and re-architected a massive application to facilitate file processing.

Kelly writes, "I am super excited to be working with a bunch of talented professionals in an industry on the rise."

Green IT CEO Andrew Eisenberg remarks, "Whether building software or relationships with team members across departments, Kelly's steady hand and creative problem-solving will serve the Green IT platform well as our growth accelerates."

Welcome, Kelly!

About Green IT

Green IT Energy Applications™ provides software solutions and comprehensive IT services for the renewable energy industry. Since 2002, Green IT has pioneered technology-driven strategies that optimize all stages within the lifecycle of an asset, from origination through planning, execution, operations, and asset management. Green IT's Smart Software catalog combined with our team's industry-specific expertise equip us to add value to assets of any size or class.
